

PadPak® JR

Superior Protection,
Small Footprint

Flexible

Pad can be used for items of all shapes and sizes

Cost efficient

Less material needed to provide optimal protection

Simple

Converter is easy to use, no training is needed

The **flexible solution** for excellent cushioning **in every setting**

The mobile PadPak JR converts 2 layer paper into exceptional cushioning pads which can be used to protect products of all shapes and sizes during shipment. The paper pad has an incredible shock absorbing capacity. By using this pad, up to 90% of the G-forces are decreased when a box drops on the floor, compared to other materials, leaving your product undamaged. The converter is fast, easy to install or to move around, and requires no special training.

Go Green

Our company works with FSC certified suppliers. Paper is climate neutral, recyclable and also a renewable source.

Specifications of the system

Converter

- Dimensions: 80x78x154 cm
- Weight: 47 kg
- Power: 250 Watt
- Voltage: 230 Volt
- Frequency: 50/60 Hz

Paper

- Base weight: 70/70 gr/m²
- Roll length: 160 m
- Roll weight: 15.4 kg
- Paper width: 68 cm

Our Added Value

Packaging Engineering

Ranpak analyses and reports on your current packaging solution. The drop test shows exactly how much shock is transmitted to your products through the packaging. Ranpak then suggests alternatives how to improve protection or save costs.

Integrated Applications

The Ranpak Added Value department can design structures, frames and other innovative solutions to integrate the packaging converter anywhere around, above or under a packing area.

Packaging Training

Training from our packaging experts will help your packers to use up to 20% less packing material, without compromising the quality of the packaging.

Successful in these industries

Machinery	Tools	Electronics	Computers	Technical Instruments
Medical	Automotive	China & Glass	Industrial Parts	Construction
